## 2. 교과목 개요

강의개요	Action English is an action-oriented English conversation class, which is conducted through TEE (ie., teaching English through English, this is NOT an option, but a must). It aims at increasing students' communicative competence especially in both speaking and listening along with reviewing and presenting. Thus, writing in this course is not much preferred for its evaluation. Throughout carefully-designed classroom activities from the textbook, students are exposed to various types of classroom activities/performances/ tasks. This class is 3 credits with 4 hours per week: 3 hours of Action English and 1 hour of listening developing skills.					
학습목표	To enhance students' communicative competence in reviewing, speaking, presenting, and listening in English with various classroom activities/tasks/performances/presentations in English.					
문제해결방법	This class is activity-based and can involve group or individual English speaking projects. Students will be asked to address problem-solving learning strategies and practice English speaking in small groups or in individual projects.
